Quantity	1,550																																																		
Color	Black																																																		
Light Output	15-30 lumens																																																		
Beam Intensity	2,000-25,000 candela																																																		
Beam Pattern	15-100 cd/lm																																																		
User Interface and Output Modes	Single Output																																																		
Runtime	1-5 hours																																																		
Power Source	Lithium-Ion																																																		
Alternate Power Source (For Rechargeable Flashlights)	n/a																																																		
Size and Weight	Mid-Sized (6"-10")																																																		
Charge Time (For Fully Drained Rechargeable Flashlights)	3-5 hours																																																		
Charging Options (For Rechargeable Flashlights)	Cradle Charge																																																		
Quantity	1,550																																																		
Color	Black																																																		
Light Output	minimum of 30 lumens																																																		
Beam Intensity	minimum of 25,000 candela																																																		
Beam Pattern	15-100 cd/lm																																																		
User Interface and Output Modes	Minimum of Single Output																																																		
Runtime	Minimum of 5 hours																																																		
Power Source	Lithium-Ion																																																		
Alternate Power Source (For Rechargeable Flashlights)	n/a																																																		
Size and Weight	Within range of 5 to 10 inches																																																		
Charge Time (For Fully Drained Rechargeable Flashlights)	Minimum of 3 hours																																																		
Charging Options (For Rechargeable Flashlights)	Cradle Charge																																																		

Charging Power Source (For Rechargeable Flashlights)	120V AC	Charging Power Source (For Rechargeable Flashlights)	110V-240V AC
